

OBJECTIVE

I am a motivated and diligent professional in computer engineering, hands-on with Flutter development, MERN stack development, and gaining interest in the field of cloud computing. I will conceptualize and practically work to extend my knowledge in cloud engineering. I enjoy being updated on emerging technologies and expanding my skill set. Having had the best of both worlds, with an extensive academic background as well as industry exposure, I am well-wishful to try to make a difference in the field of software development with projects that really make a difference on the ground, using my cloud and development skills. I look forward to being given an opportunity to work with a zealous cloud computing team in a growth-oriented environment.

EDUCATION

Sagarmatha engineering college , Sanepa — *Computer engineering*

Affiliated tribhuvan university(IOE)

lalitpur,nepal

Expected Graduation: may 2026

Related coursework :Date structure and algorithm,software engineering

Object oriented programming, web development,database management syastem etc.

LA collage , hattiban — +2

+2 in science from-2019 to 2021

PROJECTS Fortify— Mainstream javascript

project.

An e cient food delivery app that brings the world's cuisines to your doorstep with a seamless ordering

experience. **Tic Tac Toe** — *Tic tac toe game using GUI and OOP concept in C++* .

A user-friendly app for playing tic-tac-toe on the go, offering a delightful and quick gaming experience

pokedex — React-Powered, API Mastery.

Ultimate Pokémon companion, offering comprehensive information to learn API handling.

Bit-Er— MERN-powered agency showcase.

Bit-Er is a sleek and modern website crafted with the power of MERN stack, serving as a showcase for our software development agency's prowess and portfolio.

Other Project listed on Git-Hub- <https://github.com/BitBrain19>

Pushkar Jha

Software Development Enthusiast

[4a8328237](https://github.com/BitBrain19)

SKILLS

Programming Languages:

JavaScript, HTML,

CSS,learning python

Frameworks : MERN Stack

(MongoDB, Express.js, React.js,

Node.js)

Cloud Computing: Currently

learning AWS (Amazon Web

Services), Azure

Version Control: Git,

GitHub

Database Management:

MongoDB

Problem-solving skills

Strong communication skills

Certifications

Training in html and css.

Web designing.

2022 hackathon. Training

Flutter

AWS Cloud Club Nepal

Cohort-1 fellowship

AWS Fundamentals: Currently pursuing AWS Fundamentals certification to deepen understanding
